

"Having Fun and Making Lasting Memories"

Photo booths are tremendously fun and leave lasting memories for you as well as your guests. Our curiosities led us to ask around as to the reason why more people do not have one at their events. The resounding answer has always been, "It's the \$800.00 to \$1000.00 price!". We thought it shouldn't be that expensive! So, we did some research and found that we could offer an EXTRAORDINARY photo booth experience for a VERY reasonable price without sacrificing ANY quality whatsoever! We discovered the latest trend in new photo booth technology, the kiosk photo booth. We use a kiosk style rather than a big clunky photo booth that is very labor intensive to transport, set up and tear down. Thereby enabling us to set the cost more in line with today's budget minded clients.

All Packages Include The Following At No Extra Charge
